

### SILVER BOW SCENE OF GREAT ACTIVITY

Charles Lane, a pioneer of Silver Bow, was in Tonopah this week for a load of supplies consigned to the camp of promise. Mr. Lane has been in Silver Bow for nearly two years and is thoroughly acquainted with the camp and its prospects. He says that at no time in its history has the showing been more promising.

During his visit here Mr. Lane purchased an ore wagon which will be used by him in transporting ore from the Cook, Day and Laws lease to the mill for treatment. He says enough ore has been extracted to keep him busy for many months to come.

A great deal of activity is going on in Silver Bow at the present time. Property owners there are busy doing their assessment work and the camp is enjoying flush times. Within the past few weeks several new leases have been let on different properties and the results are more than satisfactory to all concerned.—Tonopah Benanza.

### THE LURE OF THE SAGE

H. H. Clark and wife have been visiting the camp for the past several days, says the Greenwater Times. They are interested in the future of the camp and in many of the most prominent copper properties. Mrs. Clark accompanies her worthy lord, preferring to share with him the inconveniences of a desert life than to remain where they call home, San Leandro, Cal., where they pride themselves on having every comfort there is in life to get. The sagebrush life has charms for even the choicest and best.

Miss Dell Barkley returned this morning from Reno whither she went to attend the banquet given by the Journal to the contestants for its prizes. Miss Barkley responded most ably to the toast, "The Absentees."

Henry Kind, a pioneer merchant of Eureka, died in Tonopah last week.

The Eurekaites were made happy last week by the arrival in their mountain town of a carload of coal and one of coal oil. The inhabitants immediately proceeded to make light of the latter consignment.

H. F. Bartine, the Goldfield attorney, as he now prefers to be called, has arrived in this city and will remain here with his family until after Thanksgiving.

Unborn services will be held this year at the Methodist church.

### RAILWAY FROM WABUSKA TO WELLINGTON

YERINGTON, Nov. 26.—At a meeting of a number of citizens of this place last Thursday night there was organized what is to be known as the Nevada, Mason Valley and Los Angeles Railway Company. The company is composed of Newton Evans, of Los Angeles, President; J. I. Wilson, Vice President; F. W. Fairbanks, secretary; J. G. Kaufman, treasurer.

The company has been capitalized for \$1,000,000 and arrangements are being made to incorporate at once.

An assessment of \$100 a member was levied for the purpose of creating a fund for preliminary expenses. Arrangements have already been made to secure a surveyor and run a line from Wabuska to Wellington, although it has not been fully decided where this line is to be run, whether through the center of the valley or on the west side.

The company will eventually connect with lines that will reach Los Angeles on the south, but for the present the road from Wabuska to Wellington will be constructed as a trolley line, more than likely. Power will be secured from the Truckee River General Electric company, possibly, when that line is extended to this camp next spring. If power cannot be secured from this company there are sites nearer home that can be utilized.

A spur will also be surveyed into the Nevada Douglas and Ludwig mines and the Buckskin country. There is a great deal of business being done in the way of transportation in this section at the present time and a road, such as proposed, would create an enormous amount of new business.

Los Angeles people stand ready to take the bonds of the company at a fair figure, and we see no reason why the proposition should not be carried to an early completion.

### EPIDEMIC OF DIPHTHERIA

There is an epidemic of diphtheria at Humboldt, Humboldt county. In one family two children have died in the past two days, and the other members of the family, including the father and mother, are now suffering from the disease. They are penniless and are being supplied with food by the trainmen running through Humboldt.

### A PLEASING SOLO

The solo of Master Leslie Reid was greatly enjoyed at the Presbyterian church last evening. The "small boy" head barely reached over the choir rail, but his voice was not lacking in evidence. The congregation hopes to hear him again and often.

### CARSON GIRL WINS

Miss Irene Barkley, a native of this city but now a resident of Goldfield, won one of the prizes offered by the Reno Journal and the fortunate young lady has a delightful trip in contemplation.

DAYTON, Nov. 26.—Messrs. Brouli, Wright and Morgan, of the Truckee River General Electric Co., and Mr. Arents, of the Nevada, Douglas Co., have completed the survey for the power line from Como to the Douglas mine. The holes for the poles have been dug for a distance of four miles from Como and the poles are being delivered at that end. The survey from the Douglas to the Bluestone will be made as soon as the weather will permit and all concerned are endeavoring to have the line completed by next March.

Buy your holiday gifts early this year and save the clerks the wear and tear that attends the usual holiday shopping. Many people wait until the last minute and not only make life a burden for the merchant, but they rasp their own temper as well.

### COPPER RUN IS NEW CAMP IN WALKER DISTRICT

Copper Run is the name of a new camp that has been established on what was reservation ground, about sixteen miles southeast of Yerington, in Esmeralda county.

The locating parties were the first men on the ground and had their eyes on the good things in that section long before the opening of the Reservation. They have located quite a large number of excellent copper, gold, silver and lead claims; have taken up sixteen placer claims for a townsite, which is one of the finest locations in that whole mineral belt. They have the best kind of spring water, and an abundance can be developed for a town of five thousand inhabitants. There is also plenty of wood and timber for mining purposes.

The town is located about half a mile west of one of the largest copper lodes in this state. It is about four miles south west of some old workings on this lode, and where in years gone by quite a little work was done in the way of developing some of the copper ground. This lode can be traced on the surface for a distance of over seven miles and from many prospect holes one that runs high in the red metal has been extracted. Some of the best ore from this district was taken out of what was formerly known as the Bob Mathews claim. This ore was shipped and gave returns of over 60 per cent. copper and carried good gold and silver values. This property is located outside of the old Reservation line, but extends into the reservation ground. All along the lead line prospects are found that go anywhere from 10 to 60 per cent in copper, \$8 to \$25 in gold and from a few ounces up to 60 ounces in silver. The owners of claims on this lode have about completed their holding work and are preparing to develop their properties and ship ore in the near future. Mining men of prominence who have visited the district pronounce it one of the greatest showings they have ever seen, and it is not at all improbable that a second Butte city may spring into existence in the new camp of Copper Run.—Lyon County Times.

The Broadway school in Goldfield was destroyed by fire last Monday morning, but fortunately the children had not assembled for the day's instruction or there might have been a great loss of life.

Alfred Archer and daughters, Misses Myrtle and Lumber are visiting friends in the northern part of the state. Their home is in Goldfield.

Miss Kate Swick who held a clerkship in the last legislature, has been appointed teacher of the Cottonwood school in Eureka county.

"Grandma" Stauts, who has a number of friends in this city, has been very ill in Lovelock with pneumonia.

The storm King has made several bluffs today to make a showing and probably will succeed before the night is over by getting here in fine shape.

Tonight will be the last night to see the pictures at the Park theatre until next Saturday night and then the views will be different. This week's list of films is a splendid one. Better go and see the roll to night. The complete program will be found elsewhere. n261

Remember that you have but a week in which to pay your first installment of taxes. After next week they will be delinquent and 10 per cent will be added, in addition to the cost of advertising.

Do not work about your Thanksgiving party; buy a cake or a pie at the sale held by the ladies of the Methodist Church Wednesday afternoon at the arsonage.

### BANQUET CEMENTS TIE BETWEEN UTAH AND NEVADA

He was introduced as L. M. Sullivan of the Sullivan Trust company of Goldfield, Nev. but before the dinner was over nearly everybody at the magnificently decorated tables knew him as "Larry." He is such a companionable, approachable sort of chap that they just couldn't help it. The dinner was given at the Commercial club by D. H. Feery in Mr. Sullivan's honor. Seventy-five guests were present.

It was on the shortest notice that the dinner was given. Mr. Peery, who is a life long friend of Mr. Sullivan's, and who has been Mr. Sullivan's host during his brief visit in Salt Lake, concluded yesterday morning that it would be a good idea to entertain in honor of the Goldfield magnate. The result, in spite of the short notice, was as perfectly appointed a dinner as has ever been seen in Salt Lake.

The decorations were in American Beauty roses, carnations, smilax and ferns artistically arranged. At the plate of each guest was a carnation boutonniere. The dinner itself was an elaborate one. Agents of the host and of the club had scoured the markets for delicacies and the result was a dinner that left nothing to be desired.

After full justice had been done to the repeat Judge Goodwin, who acted as toastmaster, and who was in his usual brilliant form, introduced Mr. Sullivan, in a jolly little talk. But there something besides humor in Judge Goodwin's remarks. Speaking in serious vein he referred to Mr. Sullivan as one of the men who had brought Nevada to the front and given it the high place it now holds in the estimation of the public.—Salt Lake Herald.

### MARK TWAIN'S NEW BOOK BARRED FROM LIBRARY

NEW YORK, Nov. 26.—Mark Twain was surprised, but not displeased today when he heard that his book, "Eve's Diary" has been tabooed by the public library authorities at Worcester, Mass. He said, however: "I'm not worrying. I'm happy: I hope they can get along as well without the book as I can bear their refusing of it. I shall do nothing about it."

Dispatches from Worcester stated: "Eve's Diary" was barred yesterday from the Charleston Free Public Library because a woman attendant and a trustee were shocked by the pictures. Among one hundred books just delivered was "Eve's Diary." Mrs. H. L. Carpenter an employee, scanned the book from cover to cover.

There are etchings on every left hand page, fifty in all, and Mrs. Carpenter looked at them with varying emotions. After one good, large, final look she took the book to Trustee Frank Wakefield. He also took a number of looks at the etchings which depict Eve in all kinds of summary costumes, fashioned after the styles of her day and climate. One in particular which showed Eve reclining on a rock, engaged his attention and decided him to bar the book. In one picture Eve is seen slipping through the bushes unobserved.

### NOTED VISITOR TO NEVADA

GOLDFIELD, Nov. 26.—Major H. L. French, who served during the Spanish war as major of Roosevelt's regiment of "Rough Riders," and who for the past five years has been a successful operator in the Nome goldfields, spent Sunday in Tonopah and is now in Goldfield, where he will probably make some important investments. The Major has powerful financial backing in the East, and if he enters this field will make things hum.
